2. Today I'm writing a review of a website. I'd like to review WK.
Downloading ~~it~~ is easy enough. Just go to your app installer and
click a couple of buttons. Its contents presents a very wide range of media.
From philosophy and memes to music and games. But WK is presented
as a messenger and it does its job pretty well. Aside from crashes
a couple times a year and privacy issues. Adjustable graphics
and night mode make messaging especially pleasant. And it sounds
as good as any other streaming service while having a lot of special
features.

Over all, WK is a well-made app. But I'd consider switching because of
privacy issues and unneeded features.
